

PRESENTING FOR KIDS at RIDGE!

IMAGINE IF YOU LEARNED TO GIVE A SPEECH WHEN YOU LEARNED TO RIDE A BIKE . . . IT WOULD BE EASY!

Presenting For Kids teaches kids in 3rd–5th grade the art of presenting. In our classes, we cover the situations where kids are presenting themselves in the real (not virtual) world: introductions, conversations, presentations/speeches, question asking and impromptu speaking.

By the end of the class, kids will:

- Understand how to organize and deliver a speech
- Conquer fears of being in the spotlight
- Realize the importance of a positive first impression
- Learn the art of conversation and going beyond “What’s up?”
- Appreciate the role of nonverbal communication in everyday conversation
