

The Ridge Beautification Project

Construction is complete and we are so pleased with the outcome.

The newly renovated area is not only beautiful, it's functional. Students and families now have ramp access to the 3rd-5th grade classrooms and playground.

Thank you to the generous Ridge school families whose support and contributions made this project possible.

Much effort was made to keep costs low and to maximize donations and special pricing.

RBP raised enough money to fund the project installation

and

donate \$17,000 to Ridge school for technology enhancements.

A considerable amount of time and planning went into the Ridge Beautification project, and there are many people who deserve thanks:

Our generous Ridge families, Jean Schoenlank and staff, Ann Alvarado & the Ridge HSA, Steve Tichenor - Ridgewood Public Schools, Mike Tarleton - TLC /Tarleton Landscaping, Alex Kozar - R&S, Written in Stone, and American Nursery.

Lastly, Martha and I would like to give **special thanks to our families** who have supported us throughout the project.

While we appreciate the interest, the paver order process is officially closed and no additional orders will be taken.

Thank you Jen Blodgett & Martha Goldberg
